Metro Rail to spend ₹20cr on road repairs

DC CORRESPONDENT,
HYDERABAD, OCT. 13

Hyderabad Metro Rail (HMR) will spend ₹20 crore to repair the roads that were damaged during the recent rain along all the three Metro Rail corridors in the city. HMR managing director N.V.S. Reddy visited these spots and decided to take up road repairs where the pillar and foundation works had

been completed.

HMR will be repairing roads on the LB Nagar-Dilsukhnagar-Chaderghat stretch; the road from Rangmahal Junction to Nampally to Khairatabad; and from Punjagutta to Kukatpally via SR Nagar on Corridor-I.

In Corridor-III, HMR will repair the Secunderabad to Begumpet stretch and Roads No. 5 and 36 of Jubilee Hills.

The work will be taken up in patches between Secunderabad and RTC crossroads and from Badichowdi to Pultibowli, where Metro Rail works are still going on on Corridor II.

At Khairatabad junction and Madhapur station the works are being taken up using paver blocks which was stated to be a long term solution for water logging.
