International Metro meet held

Hyderabad: An international Metro rail conference was organized in the city on Tuesday by Keolis, the French public transportation group which is operating the Hyderabad Metro Rail (HMRL).

The conference was organized to exchange ideas and experiences about the latest Metro rail technologies, best practices and innovative solutions being adopted by different metros across the globe and the fast-developing Metro rail systems in various Indian cities.

The conference was attended by senior directors, rail experts of Keolis and Metro rail authorities from various cities in India, Europe, USA, Australia, China and Qatar. Managing director of HMRL, N V S Reddy explained the unique features of HMR during the conference. TNN
