Inaugurating the 16th Foundation Day celebrations of Vivekananda Institute of Human Excellence at Ramakrishna Math, Hyderabad today (Friday), MD, HMR Mr.NVS Reddy addressed a large gathering of management, engineering, CA and other students on “Leadership Challenges in executing Hyderabad Metro Rail project”.

Explaining the relevance of Swami Vivekananda’s teachings for building a resurgent India, Mr. Reddy emphasized on character, fearlessness, hard work and self sacrifice. Describing people (human resources) as the most valuable resource for any nation, he urged the students to be innovative and contribute to the prosperity of the nation.

Delving deep into the thoughts of un-conventional thinkers who changed the course of human history, he advised students to embark upon path-breaking approaches to achieve higher goals. Citing the Hyderabad Metro Rail example, which is the largest mass transit project in the public private partnership (PPP), he explained as to how he turned around this once “written off” and much ridiculed project into a successful project winning several global and national awards.

Given its innovative financial model and engineering ingenuity, he predicted that Hyderabad Metro Rail would become a role model for other infrastructure projects in India and the world. Such path-breaking projects can only be successfully executed with courage of conviction, single minded dedication, dogged perseverance and grit, he emphasized. He recalled the multiple challenges that the project encountered during the initial stages and explained as to how he converted every challenge into an opportunity to add value to the project.

Elaborating the multiple skill sets, knowledge of different disciplines, expertise in latest technologies that are required for successful managers to lead complex projects, Mr.NVS Reddy urged the students to develop these skills, remain focused and serve especially vulnerable and needy sections such as women, children, senior citizens, differently abled people and the poor. He advised them to refrain from negative thoughts and deeds and bring pride to the country through innovation and success.

Adyaksha, Vivekananda Institute of Human Excellence Swami Jnanadanandaji and Director, Vivekananda Institute of Human Excellence Swami Bodhamayananda also addressed the gathering.
