

Mongolian team seeks help for Metro Rail development

PNS ■ HYDERABAD

A Mongolian study team and senior government officials touring the Hyderabad Metro project expressed delight at the extensive Metro rail development across the city and sought guidance from HMRL to develop a metro rail system in Mongolia's capital city.

Senior officials from the Mongolian government attending an "International Programme on Public-Private Partnerships (PPP)" at the Administrative Staff College of India (ASCI) received a detailed briefing on the technical, documentation and legal aspects of Metro rail development from NVS Reddy, Managing Director of HMRL, at the Metro Rail Bhavan on Thursday.

Reddy shared insights about the conceptualisation and exe-

cution of the Hyderabad Metro project, highlighting the care to be given to the world's largest PPP Metro rail project's unique managerial practices and approaches to address innumerable challenges in developing the Hyderabad project.

Appreciating the knowledge shared, on how to execute a mega infrastructure project in a complex environment and difficult circumstances, the Mongolian team, led by Purevsuren Sarangerel from

the Cabinet Secretariat of Mongolia, expressed its intention to develop a Metro rail system in Mongolia's capital city, Ulaanbaatar (Ulan Bator) and sought guidance from HMRL.

The programme included Professor Subodh Kandamuthan and A Sridevi from ASCI, Mongolian study team, along with 20 other senior officers from various departments of the Mongolian government.
