

# METRO TAKES THE LEAD TO BRIDGE LAST MILE

To improve connectivity to & from metro stations, Hyderabad Metro has partnered with private services for last-mile solutions. **Ashresh Marupaka reports**

- Self-driving EV bikes are now available at Raidurg Metro Station

- Nagole & Miyapur stations are prioritized for connectivity expansion

- Move to attract commuters from peripheral areas lacking metro access

- New services supplement existing RTC buses & ride-hailing options

- Over 1 lakh passengers use first and last-mile connectivity services

- 150 dedicated Metro feeder shuttles transport 16,000 passengers daily

- Services align with metro operational hours for seamless access

## SUSTAINABLE TRANSIT

By integrating first & last-mile services, we are creating an eco-friendly and efficient ecosystem to help commuters – **KVB Reddy** | CEO, HYDERABAD METRO

## EXPANDING MOBILITY

Our 100% open mobility model has proven successful, and we look forward to extending its benefits across metro users – **Magizhan Selven** | CEO OF MANA YATRI

## CALL FOR MORE CONNECTIVITY

I live in Sainikpuri. While the metro has simplified my commute, reaching Parade Ground station remains a challenge. A shuttle could help residents in areas without direct connectivity – **Marri Saneet** | METRO USER

## LAST-MILE CONNECTIVITY OPTIONS

Vehicle type	Location
TSRTC city buses	All stations
Bike, car & auto ride-hailing apps	All stations
Private Metro feeder shuttles	15 stations
