

Metro rail creates green channel to transport cadaver heart

ENS @ Hyderabad

HYDERABAD Metro Rail on Friday created a dedicated green channel on Friday night facilitating swift and seamless transportation of a donor heart from L B Nagar's Kamineni Hospitals to KIMS Hospital, Ra-soolpura, Secunderabad.

It covered 13 km in 12 minutes. This effort was made possible with collaboration between Hyderabad Metro Rail,

medical professionals, and hospital authorities.

L&TMRHL stated that it remains committed to supporting emergency services .
