

## **Hyderabad Metro Facilitates Green Corridor for Heart Transplantation**

In a remarkable display of efficiency and coordination, Hyderabad Metro Rail created a dedicated Green Channel on 17th January 2025 at 9:30 PM. The corridor facilitated the swift and seamless transportation of a donor heart from LB Nagar's Kamineni Hospitals to Gleneagles Global Hospital, Lakdi-ka-pul, ensuring critical time was saved in this life-saving mission. 13 kilometers were covered in 13 minutes across 13 stations.

This extraordinary effort was made possible through meticulous planning and collaboration between Hyderabad Metro Rail, medical professionals, and hospital authorities, all under the supervision of the attending doctors.

L&T Metro Rail (Hyderabad) Limited (L&TMRHL) remains committed to supporting emergency services and contributing to the welfare of society by leveraging its world-class infrastructure.
