

Media Release  
January 03, 2020

Inaugurating an international conference on “Sustainability in Built Environment” in Hyderabad today, MD, HMRL Mr.NVS Reddy explained to a large gathering of architects as to how human greed and unsustainable life styles have disturbed the ecological balance. Stating that population explosion, lavish consumption patterns, inequitable growth and mass poverty are causing large scale environmental destruction in terms of climate change, depletion of ozone layer, air & water pollution, acid rain, urban flooding, loss of biodiversity, extinction of several species, etc., the MD emphasized on the need to adopt sustainable engineering and architectural designs and practices.

Stressing on the importance of innovation to make products and services cost effective and sustainable, Mr.NVS Reddy explained some of the cost effective and eco-friendly engineering practices followed in building the world’s largest PPP Metro project in Hyderabad. He highlighted the usage of 35% fly ash to reduce cement consumption, curing compound to eliminate water usage, unique station design with natural ventilation to reduce energy consumption, opting for elevated Metro system instead of underground system to avoid tunnel ventilation and air-conditioning etc., and stated that they gave sustainable solutions. He goaded the architects to use eco-friendly and locally available materials; design efficient buildings to reduce water and power consumption; and utilise Artificial Intelligence and IoT (Internet of Things) tools to make both private and public buildings environmentally sustainable. He also emphasised on the need for cooperation between individuals, institutions, R&D organisations, private companies and government agencies to promote inclusive and sustainable growth and to save the planet earth for future generations.

## **CMRS issues Safety Certificate for JBS-MGBS metro corridor2**

Commissioner of Metro Rail Safety (CMRS) Mr JK Garg inspected JBS-MGBS Metro Corridor2 along with HMRL MD Mr NVS Reddy and senior engineers and technical experts of L&Tmrhl, HMRL & Independent Engineer Louis Berger over the past 3 days and issued the mandatory Safety Certificate.

After examining the safety certification of the 25kV Overhead electrical traction & other electrical installations by CEIG (Chief Electrical Inspector General), Fire clearance of the 9stations of the corridor by DG, Fire Services, signalling & train control systems by Thales, Canada, Internal Safety Assessment by Halcrow, UK, the results of the tests of various technical parameters during trial runs etc., the CMRS thoroughly inspected the corridor & his inspection broadly covered the following:

- 1.All safety tests related to viaduct, track, signalling, telecom, trains, & electric traction system;
- 2.Speed trials at high speed to check train behavior;
- 3.Station structures, lifts & escalators, entry/exit points, ticketing systems, control rooms & passenger amenities;
- 4.Checking of Bhoiguda metro ROB, bearings, viaduct etc.;
- 5.Track parameters & OHE parameters;
- 6.Oscillograph tests to measure train acceleration values, ride quality & ride index, etc.

L&Tmrhl MD Mr KVB Reddy, Chief operating officer Mr AK Saini, Project Director Mr MP Naidu, Louis Berger Team Leader Mr Krishna Swamy, HMRL CPM Mr Anand Mohan & other senior engineers & officers of all these organisations participated in the inspection & deliberations.

The Safety Certificate issued by CMRS has cleared the way for introduction of passenger services on the last corridor of Hyderabad metro rail project phase1. The corridor with a length of 11km has 9 stations: JBS-Parade grounds, Secunderabad West, Gandhi Hospital, Musheerabad, RTC xroads, Chikkadapally, Narayanguda, Sultan Bazar, & MGBS.

Receiving the Safety Certificate from CMRS Mr Garg, HMRL MD Mr NVS Reddy stated that Government will decide the date of inauguration soon.

## **MGBS INTERCHANGE STATION- AN ENGINEERING MARVEL**

Spread over 3 lakh square feet, Mahatma Gandhi Bus Station Interchange metro station in Hyderabad is the largest metro station in the country with many special features.

The station is built in a unique way interchanging both corridors (Corridor2–JBS to Falaknuma at higher level and Corridor 1-Miyapur to LB Nagar at lower level). There are three levels with each level again split into two, as one corridor has to pass over the other.

All the facilities at the stations are seamlessly integrated in a passenger friendly manner and passengers can transit from one corridor to another in a smooth way.

**Highlights of the MGBS Interchange Metro Station:**

- The station measures 142m long and 60m wide.
- The station is designed very spaciously to accommodate the future needs of the next 100 years, retail outlets, entertainment zones and convenience outlets in an area concourse level
- Platform level of corridor 2 is at 75 ft height and roof level at 108 ft. The roof is designed with tetrahedron supported columns to look like a modern airport which is placed on the edge, for unobstructed view and improved aesthetics.
- Intermediate floors between the slabs have been created to accommodate technical services.
- Station is provisioned with two entry-exits and wider skywalks from both sides of water front for commuters to enter the station and two emergency exits for egress. Additional entry-exit is provided at the foot of existing bus facility for alighting passengers coming from different parts of country. 4 Escalators and 2 lifts are provisioned for this purpose
- The main area of the station is done up in a magnificent way with jaguar brown granite flooring.
- The integrated station has four lifts, 12 escalators and sufficient number of staircases.
- Service connection is provided for switching the movement of trains from corridor 2 and corridor 1.

## **Longitudinal Section:**

- Fully automated sumps of two lakh litre capacity each have been provided for domestic use as well as fire exigency.
- Rain water harvesting pits are also located below the arms to take the surface runoff.
- Air conditioning with energy efficient system are made available.
- Advanced building management system has been provided to monitor operations from single command control centre.
- Emergency evacuation system for station, automated fire protection system with clean gas are provided at technical rooms.
- As many as 60,000 passengers are expected to use the station every day, the open spaces, lifts, escalators, staircases etc. will able to accommodate a minimum of 6,000 passengers at any point of time.
- More than 150 No CC cameras are provided for surveillance.
- Unlike at other stations, where the trains halt for minimum ~20 seconds, they will halt for two minutes at the interchange station. Passengers will have enough time to alight and board another train at another floor in the station.

## **Perspective:**

- More than 1500-2000 workers and engineers of L&T are working round the clock to get the station shaped up.
- More than 40,000 cum concrete has been poured.
- More than 6000 MT of steel used

## Green Building Initiatives

- ✓ Sustainable environment
- ✓ Recycling waste
- ✓ Low heat dissipation
- ✓ Energy Conservation

Media Release  
March 01, 2020

MD, HMRL Mr.NVS Reddy has stated that in order to familiarize the newcomers to Hyderabad about Hyderabad lingo, culture, ethos, etc., and to enliven the open spaces at Metro stations, HMRL intends to create some interesting “Pucca Hyderabad” Walls at the Metro stations. Typical Hyderabad words like Kaiku, Nakko, Hao, Howle, Aisaich, Khairiyat?, Pori, Pareshan, etc., will be written on these walls with their meanings and context.

Similar walls will be created depicting local culture, traditions, places to visit, Hyderabad icons and famous personalities, street art, etc.

In connection with this, the MD has sought suggestions/inputs from public and they can be sent to CPRO, HMRL at [cprohmrl@gmail.com](mailto:cprohmrl@gmail.com).

## **Paytm offers Hyderabad Metro Rail users a hassle-free ride, Launches QR based tickets**

MD, HMRL Mr NVS Reddy has launched Paytm's QR-code based metro ticketing system at Metro Rail Bhavan here today.

He said, with the launch of QR code based ticketing system, “we have taken a step forward towards creating urban mobility solutions that are future ready. We believe that by offering these tech-powered solutions we will serve the transit needs of commuters more efficiently and seamlessly”.

He added that, this brand new service would give commuters in Hyderabad a new option to travel seamlessly and avoid long queues to buy tokens at metro stations. They can now simply purchase a QR ticket on their Paytm app, which can be displayed at the Automatic Fare Collection (AFC) gates to proceed for the journey.

MD- L&T Metro Rail Hyderabad Limited K.V.B. Reddy shared, "The launch of mobile QR ticketing on Hyderabad Metro in partnership with Paytm help people of Hyderabad to book digital ticket seamlessly and create mark in industry”.

This feature will help over 14 lakh smart card holders using metro services to book Single, Return, Store Value & Trip Pass ticket using the Paytm app and experience seamless connectivity. These tickets can also be pre-booked and come with a validity of one day. The company further plans to extend this service to metro-feeder buses to ensure last-mile connectivity in the city.

Speaking on the occasion, Abhay Sharma, Senior Vice President - Paytm said, "The QR-code based ticket booking feature launched in partnership with Hyderabad Metro

Rail on our app would help in reducing congestion on the ticket counters at the metro stations. Thanks to Hyderabad Metro Rail we would now be able to help metro riders to travel conveniently and book tickets on the go.

He said, Paytm provides multiple products & services like Metro Card recharges, mobile-based ticketing and trip pass for Bengaluru Metro, Hyderabad Metro, Delhi Metro, and Mumbai Metro. Also, it is the first company to launch QR-based tickets for Mumbai Metro and is expanding this service to other major cities as well.

HMRL MD Mr. NVS Reddy launched Paytm's QR-code based metro ticketing system at Metro Rail Bhavan, along with L&TMRHL MD K.V.B. Reddy and Abhay Sharma, Senior Vice President – Paytm.

Making use of non operation of trains during the lockdown period, several works and repair & maintenance activities have been undertaken by both L&TMRHL and HMRL.

1. Metro viaduct is being cleaned up & the blocked rain water pipes are being replaced to prevent water stagnation during monsoon;
2. Checking & maintenance of bearings;
3. Overhead electrical system maintenance works;
4. Signaling tests & daily data being transmitted to Thales in Canada for signaling improvement & rectification of technical glitches;
5. Rail grinding works in Corridor2 (Green line) to reduce the noise levels;
6. Running of two trains every day on the test track in Uppal Depot & in Metro corridors for various tests & operational readiness.

HMRL is laying vdcc(cement concrete) road in Sultan bazaar & carrying out BT road works wherever road condition needs improvement in corridor2(Green line).Urban Rejuvenation works at Metro stations in Corridor2 are also going on.

## Media Release

May 3, 2020

The long pending issue of shifting of high voltage electrical cables on the Lemon Tree hotel side of Raidurg metro station is resolved today in a joint inspection of HMRL MD Mr NVS Reddy along with senior officers of TSTransco, Tsspdcl & other organisations concerned. Due to presence of thirty eight 11 Kv & 33 Kv electrical cables haphazardly laid in shallow depths, sewer lines, storm water pipes etc., below the narrow footpath strip on Lemon Tree side, the fourth Entry/Exit of Raidurg metro station could not be constructed and even the footpath could not be laid earlier.

Amicably resolving all the contentious & safety issues, HMRL MD advised L&T to change the foundation design of the escalator, elevator & staircase of the Metro entry/exit near Lemon Tree hotel; & Transco to share some of the space it recently dug to lay its 132 Kv cables for accommodating some of the Discom electrical cables. He also instructed HMRL & L&T engineers to quickly construct a special trough to safely enclose the remaining cables of Tsspdcl. He has also directed them to complete the cable shifting works with proper coordination

among all the details organisations by the 10th of this month, so as to take up the footpath & entry/exit works thereafter.

Tsspdcl Directors Mr J Srinivas Reddy & Mr T.Srinivas; HMRL Chief Electrical Engineer Mr DVS Raju & Chief Project Manager Mr Anand Mohan; Transco CE Mrs Lata Vinod, L&T Metro Project Director Mr MP Naidu & other senior officers participated in the inspection.

## **L&T Donates Rs 3 Cr Worth PPE Kits And N95 Masks To Government Of Telangana, As Solidarity Support.**

Larsen Toubro Group, is proud to announce that the company has donated Personal Protective Equipment (PPE) Kits and N95 masks worth Rs 3 Crores to Government of Telangana through Telangana State Medical Services & Infrastructure Development Corporation (TSMSIDC) in various tranches.

Mr. KVB. Reddy, MD & CEO - L&TMRHL, on behalf of L&T Group, has handed over the same to Sri KTR, Minister for MA&UD, Industries, IT&C, today. Also present during the handing over was Mr NVS Reddy, MD - HMRL.

On extending the hand of slodarity, Mr KVB Reddy stated,

“These are extraordinary times for the entire humankind across the globe. This is not an easy phase, but we also know that this is temporary. For Hyderabad Metro Rail, the main focus is the health and safety of everyone, especially the front liners fighting Covid-19 head on to keep all of us safe. This donation is in that direction to the Government of Telangana. I sincerely appreciate and thank our Hon’ble Chief Minister and his team for fighting against Covid-19 during these challenging times.

By the time the lockdown ends, Hyderabad Metro Rail will be fully prepared for a ramp-up of its services towards a safe and healthy travel experience for all its valuable commuters. It is very challenging. But also, an amazing opportunity to unlearn, relearn, and test our capabilities and value systems.”

Sep. 3, 2020

HMRL MD Mr.NVS Reddy conducted a review meeting with L&TMRHL MD Mr. KVB Reddy and senior officials of HMRL and L&TMRHL today (Thursday) on the preparedness and safety measures to be taken for resumption of Hyderabad Metro rail services.

Metro operations will be resumed phase-wise in a graded manner from the 7th of this month (Monday). The phases that are spread over the next few days will be announced shortly. The stations in containment zones (about 5 stations) will be closed for passenger traffic. Broad Guidelines and Standard Operating Procedure (SOP) for resumption of Hyderabad metro rail services are as follows:

1. Frequency of trains will be around 5 min; it will be improved or decreased based on passenger traffic and to avoid crowding.
2. In order to ensure social distancing, suitable markings at stations and inside trains are being done for passengers to stand. Alternate seat will be marked x inside the train and kept vacant.
3. Social distancing would be monitored through CCTV by OCC, Station controller and Train Operators.
4. Wearing of face mask is mandatory for all passengers and staff. Metro Rail will make arrangements for supply of masks on payment basis to the persons arriving without mask. Suitable penalty as per regulation shall be imposed for any violation.
5. Only asymptomatic persons will be allowed to travel after thermal screening at entry into the stations. Symptomatic persons would be advised to go to nearby COVID Care Centre/Hospital for testing/medical attention. Use of Aarogys-Setu App would be encouraged.
6. Pedal type sanitizers will be kept at entry into the stations for use by passengers.
7. Proper PPE kits and sanitizers will be provided to employees/ security personnel, who are likely to be in proximate contact with commuters and for longer duration.
8. Considering the potential of Corona to spread quickly, security personnel/ private guards have been instructed to ensure adequate safety while frisking commuters without diluting security drills.

9. Smart Card and Mobile QR ticket with cashless/online transactions will be encouraged.
10. Passengers will be advised to travel with minimum luggage and avoid carrying metallic items for easy and quick scanning. They will be encouraged to carry small bottle of sanitizer with them.
11. Parking spaces would be opened for the metro customers as per guidelines.
12. Mock drills keeping view various scenarios post Covid-19 are being conducted before commencement of the metro operation.
13. Metro Rail will keep close liaison with State police, medical authorities and local administration for regulating crowd outside station and to deal with contingencies.

L&TMRHL Chief Operating Officer Mr. Anil Kumar Saini, senior officers of HMRL Mr.DVS Raju, Mr.S.K.Das, Mr.Ananda Mohan, Mr.Vishnu Vardhan Reddy, Mr.B.N.Rajeswar and others attended the review meeting.

## **Hyderabad Metro Rail – Metro Suvarna Offer Update**

The Metro Suvarna Offer was launched on 17 Oct 2020 and was very well accepted by Hyderabad citizens resulting in increase of metro ridership by over 30%. On an average, 1.30 lakh passenger trips are being made daily during weekdays & the numbers are increasing day by day. After initial success, Hyderabad Metro Rail is happy to introduce another product starting from Nov 1st as a part of the Metro Suvarna Offer.

This product will include a cashback of up to 50% on recharge of METRO SMART CARDS.

(1) The offer is valid on smart card recharges at stations and online through Apps. The top-up amount has to be consumed within 90 days from recharge.

e.g. : On recharge of Rs. 1500, customer gets Rs. 600 as cashback in smart card. Total amount added will be Rs 1500+ 600 = Rs 2100.

In addition he also gets 10% discount on every metro journey.

(2) In addition, the Metro Suvarna Trip Offer, which gives additional free trips to customers, can now also be availed in existing smart cards.

NOTE: More details are available at metro stations

## **6<sup>th</sup> Garden Festival 2020**

### **HMRL wins eight prizes**

Hyderabad Metro Rail Limited (HMRL) has won eight prizes in the 6<sup>th</sup> Telangana Garden Festival 2020 and this includes five first prizes and three second prizes for development of greenery in different categories conducted by the Government of Telangana said Managing Director Mr NVS Reddy here today. (Dec. 6, 2020)

The MD said “we have sent eight entries and bagged prizes in all the categories”. He added though HMRL has limited areas, it has developed theme based gardens and won so many awards and HMRL has been participating in the TS Garden Festival since four years and receiving awards in large numbers.

HMRL gives top priority for greenery development under the Metro viaducts, besides avenue plantation and thus contributing for the control of pollution in the city, he added.

HMRL’s Senior Horticulture Officer Mr S. Sainath has received the prizes at a function organised at Public Gardens.

The details of the prizes received and photographs are attached herewith.
