

Engineers' Day at Anurag University

Speaking as the Chief Guest on the occasion of Engineers' Day at Anurag University on the outskirts of Hyderabad on Thursday (15.09.2022) MD, HMRL Mr.NVS Reddy recalled some of the profound technological innovations that transformed human history and goaded the young students to learn problem solving skills and come up with innovative technical solutions for providing better living conditions for all segments of the society.

Paying rich tributes to Bharat Ratna M. Visweswaraya, he requested the faculty to encourage questioning minds, inculcate critical thinking and facilitate self development among the students and mould them to be socially conscious and useful technologists.

Giving practical examples from Hyderabad Metro which is the world's largest ppp(public private partnership) metro, the MD explained to them as to how original thinking and unconventional ideas helped him in addressing the various challenges in conceiving and implementing Hyderabad Metro as a ppp metro project, which was originally written off by many experts as a foolish idea and a jinxed project.

He advised the students to be innovative, self confident and learn to face the challenges boldly. He also counseled them to develop passion for knowledge, perfection and excellence in their chosen fields, so that they can become future thought leaders and contribute to the progress of the country and mankind.

Group Director, National Remote Sensing Centre Mr G Srinivas Rao, VC Anurag university Prof Ramachandram; Registrar, Anurag university Prof S Sameen Fatima, CEO Mrs P. Neelima, Chairman Dr Palla Rajeshwar Reddy and other faculty members participated in the grand Engineers' Day celebrations organised at Anurag university
