

HYDERABAD METRO BAGS GLOBAL AWARD

DC CORRESPONDENT

HYDERABAD, JUNE 30

Metro Rail Hyderabad (L&TMRHL) has received a special recognition award for the Asia-Pacific region at the UITP Awards 2025, held in Hamburg, Germany. The award was given for the metro's project titled "Optimised Metro Operation Plans Leading to Increased Revenue per Train", which focused on data-based scheduling, energy-efficient operations and improved train deployment, said a press release from the company on Monday.

These measures led to a tangible increase in revenue per train while maintaining service standards. The awards event was organised by the International Association of Public Transport (UITP), a global network of more than 1,900 member organisations in over 100 countries.
